I. CORPORATE STRUCTURE

A. Name, Address and Incorporation

Corby Distilleries Limited and its subsidiaries are collectively referred to herein as “Corby” or the “Corporation”. All of Corby’s subsidiaries are wholly-owned.

The Corporation was formed under the federal laws of Canada by way of Letters Patent dated September 30, 1924, under the name of Canadian Industrial Alcohol Company Limited. The Corporation was continued under the *Canada Business Corporations Act* on January 23, 1979.

Corby’s Voting Class A Common Shares and Non-Voting Class B Common Shares have been listed on the Toronto Stock Exchange (“TSX”) since February 3, 1969.

Effective September 8, 2008, Corby’s registered and principal office is located at 225 King Street West, Suite 1100, Toronto, Ontario M5V 3M2.

II. GENERAL DEVELOPMENT OF THE BUSINESS

Corby markets a full range of domestically produced and imported spirits, wines and coolers, including Wisner’s Canadian whiskies, Lamb’s rum, Polar Ice vodka and Seagram Coolers, as well as leading international marques, such as ABSOLUT vodka, Chivas Regal, The Glenlivet and Ballantine’s scotches, Jameson Irish whiskey, Beefeater gin, Havana Club and Malibu rums, Kahlúa liqueur, Mumm champagne, and Jacob’s Creek and Wyndham Estate wines.

A. Three-Year History

During the last three completed fiscal years ended June 30, 2009, the operating revenues of the Corporation ranged from \$153.6 million for the year ended June 30, 2007 to \$169.3 million for the year ended June 30, 2009. Net earnings for the same three-year period were \$100.4 million for the year ended June 30, 2007, \$31.9 million for the year ended June 30, 2008, and \$30.4 million for the year ended June 30, 2009. Net earnings for the year ended June 30, 2007 included a one-time gain from disposition of the Corporation's equity investment in the Tia Maria Group totalling \$71.5 million.

B. Significant Agreements with Pernod Ricard

1. September 26, 2008 Agreement – ABSOLUT Vodka

On September 26, 2008, Pernod Ricard S.A. (“Pernod Ricard” or “PR”) and Corby entered into an agreement providing Corby the exclusive right to represent ABSOLUT vodka in Canada for five years to September 30, 2013. As part of this agreement, Corby also received the exclusive right to represent Plymouth gin and Level vodka. Effective October 1, 2008, Pernod Ricard terminated the existing third-party Canadian representation of ABSOLUT vodka, following Pernod Ricard's recent acquisition of the Vin & Spirit Group.

ABSOLUT is the number one premium vodka brand worldwide with around 11 million 9 litre cases sold in 2007 and one of only four international spirits brands in the world which sells more than 10 million cases a year. The addition of ABSOLUT vodka complements Corby's strategy seamlessly, while further enhancing the Corporation's premium brands portfolio.

The agreement to represent ABSOLUT vodka lifted Corby to number two in the vodka category in Canada with a 25% volume share. It also brought together within Corby's distribution network, one of the leading global vodka brands – ABSOLUT – with one of the leading Canadian vodka brands – Polar Ice. The distribution of ABSOLUT vodka is expected to add about \$2.5 million annually to Corby's commission income and about \$1.8 million annually to earnings from operations in the first full year.

As part of the agreement, Corby will continue to participate in existing mirror netting service agreements (“Mirror Agreements”) with Pernod Ricard's wholly-owned Canadian subsidiaries regarding its cash surplus for three years to October 1, 2011. The Mirror Agreements aggregate each of the participant's net cash balance on a nightly basis. As a result, Corby has agreed to allow Pernod Ricard to use Corby's full surplus cash balance on a nightly basis as a netting against Pernod Ricard's wholly-owned Canadian subsidiaries' overdraft balances with The Bank of Nova Scotia (“Scotiabank”). In return for this arrangement, Pernod Ricard will pay Corby a daily interest rate of one month LIBOR + 40bp. Corby can withdraw from the Mirror Agreements at any time within the next three years and, upon such withdrawal, the funds will be fully repaid. Further, Corby agreed that during the next three years to October 1, 2011, it will not declare any special dividends, repurchase shares or make acquisitions or investments outside the normal course of business.

2. September 29, 2006 Agreement –Pernod Ricard's Brands

On September 29, 2006, Pernod Ricard and Corby concluded an agreement concerning the Canadian representation of Pernod Ricard's brands, production of Corby's owned-brands, an exchange of certain assets and a combined strategic approach to the Canadian market. Pernod Ricard indirectly owns in excess of 50% of the issued and outstanding Voting Class A Common Shares of Corby and is considered to be Corby's ultimate parent. The transaction also involved the reorganization of both companies' Canadian operations.

Under the agreement, Corby acquired the exclusive right to represent Pernod Ricard's brands in Canada for a 15-year period, expiring in 2021. As part of the transaction with Pernod Ricard, Corby also acquired from Pernod Ricard the international rights to Lamb's rum (excluding the Canadian rights, which Corby already owned) and the Canadian rights to Seagram Coolers. Corby satisfied the \$105 million purchase price by selling its 45% interest in the Tia Maria Group to Pernod Ricard and by making a cash payment to Pernod Ricard, after receipt of a \$28.6 million dividend from the Tia Maria Group immediately prior to its disposition. Corby and Pernod Ricard also agreed upon the terms for continuation of production of Corby's owned-brands by Pernod Ricard at its production facility in Windsor, Ontario, for a 10-year period, expiring in 2016. The companies further agreed that Corby would manage Pernod Ricard's business interests in Canada, including the Windsor production facility.

III. DESCRIPTION OF THE BUSINESS

A. General

Corby, the spirit maker, is a leading Canadian manufacturer and marketer of spirits and coolers, and importer of wines. Corby's national leadership is sustained by an excellent brand portfolio which allows the Corporation to drive profitable organic growth with strong, consistent cash flows in Canada and internationally.

Corby owns or represents eight of the 25 top-selling spirit brands in Canada, and 16 of the top 50, as measured by case volumes. Leading owned brands distributed in the Canadian market consist of Wiser's Canadian whiskies, Lamb's rum, Polar Ice vodka, McGuinness liqueurs among others. Leading represented brands include international marques, such as ABSOLUT vodka, Chivas Regal, The Glenlivet and Ballantine's scotches, Jameson Irish whiskey, Beefeater gin, Havana Club and Malibu rums, Kahlúa liqueur, Mumm champagne, and Jacob's Creek and Wyndham Estate wines.

The Corporation's activities are comprised of the production of spirits, along with the distribution of owned and represented spirits, liqueurs and imported wines. Approximately 90% of the Corporation's operating revenue is derived from sales of the Corporation's owned spirit brands. The remainder comes from commissions earned on the sale of represented spirit brands (7% of operating revenue) and wine brands (3% of operating revenue).

Corby's business consists predominantly of sales within Canada, which represent 93% of the Corporation's operating revenue. Sales in Canada are made to each of the provincial liquor boards. In fiscal 2009, sales to the three largest provincial liquor boards accounted for 32%, 16% and 11%, respectively, of operating revenue of the Corporation (fiscal 2008 - 29%, 17% and 13%, respectively).

The Corporation's sales to customers outside of Canada for each of the years ended 2009 and 2008 represented approximately 7% of operating revenue. These sales mainly consist of shipments of key brands, such as Polar Ice vodka and Wiser's DeLuxe whisky into the United States and select countries in western Europe, and the sale of Lamb's rum in the United Kingdom and other international markets.

Corby's operations are typically subject to seasonal fluctuations in that the retail holiday season generally results in an increase in consumer purchases over the course of October, November and December. Further, the summer months traditionally result in higher consumer purchases of spirits as compared to the winter and spring months. As a result, the Corporation's first and second quarter of each fiscal year tend to reflect the impact of seasonal fluctuations in that more shipments are typically made during those quarters.

The Corporation sources approximately 73% of its spirits production requirements from Hiram Walker & Sons Limited ("HWSL") located in Windsor, Ontario, with the balance of Corby's spirits production being sourced from the Corporation's owned plant in Montréal, Québec. During fiscal 2008, all production requirements for Lamb's International were moved to Corby's owned plant. Essentially all of

Corby's cooler production requirements are outsourced to an unrelated third party located in Dorval, Québec.

B. Related Party Transactions

HWSL, an indirectly wholly-owned subsidiary of Pernod Ricard, owns in excess of 50% of the issued and outstanding Voting Class A Common Shares of Corby and is thereby considered to be the Corporation's parent. Pernod Ricard is considered to be Corby's ultimate parent and affiliated companies are those that are also subsidiaries of Pernod Ricard.

Corby engages in a significant amount of transactions with its parent company, its ultimate parent and affiliates. Specifically, Corby renders services to its parent company, its ultimate parent and affiliates for the purposes of marketing, sale and production of beverage alcohol products in Canada. Furthermore, Corby sub-contracts the large majority of its distilling, blending, bottling, storing and production activities to its parent company. A significant portion of Corby's bookkeeping, recordkeeping services, data processing and other administrative services are also outsourced to its parent company.

As discussed, above, under "General Development of the Business", Corby entered into an agreement on September 26, 2008, regarding the Canadian representation of ABSOLUT vodka, including certain restrictive covenants, and also entered into agreements on September 29, 2006 regarding the continued production of its brands by Pernod Ricard at its production facility in Windsor, Ontario, for a 10-year period, expiring in 2016. Corby also agreed to manage Pernod Ricard's business interests in Canada, including the Windsor production facility. Certain officers of Corby have been appointed as directors and officers within the Pernod Ricard Group, as approved by Corby's Board of Directors. All of these transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Corby changed its financial institution to Scotiabank in December 2007. As a result, all of the Corporation's banking and cash management needs are addressed by Scotiabank and, under this arrangement, Corby participates in the Mirror Agreements with Pernod Ricard's other Canadian affiliates. The Mirror Agreements act to aggregate each participant's net cash balance on a nightly basis for purposes of interest calculation. Corby earns interest income, which is settled on a monthly basis, from Pernod Ricard at market rates on its cash balances held at its financial institution.

C. Risks

The Corporation is exposed to a number of risks in the normal course of its business that have the potential to affect its operating and financial performance.

1. Industry and Regulatory

The beverage alcohol industry in Canada is subject to government policy, extensive regulatory requirements and significant rates of taxation at both the federal and provincial levels. As a result, changes in the government policy, regulatory and/or taxation environments within the beverage alcohol industry may affect Corby's business operations, including changes in market dynamics or changes in consumer consumption patterns.

A specific example of such a situation is when the Alberta Gaming and Liquor Commission announced a 30% increase in the provincial mark-up applied to beverage alcohol products. This increase, which became effective on April 8, 2009, resulted in higher retail prices for the consumer. However, three months later, the Alberta Premier reversed this decision.

In addition, certain Canadian whiskies are subject to an increased rate of excise duty effective July 1, 2009. This increase is the result of legislation passed by the federal government on May 2, 2006, which served to increase the rate of excise duty on spirits by 5.7%. It is estimated that the application of these higher excise duty rates will reduce Corby's annual sales by \$1.3 million, and translate to a reduction of net earnings of \$0.9 million. It is not anticipated that these higher excise rates can be passed on to consumers through higher prices in the near term.

The Corporation continuously monitors the potential risk associated with any proposed changes in its government policy, regulatory and taxation environments and, as an industry leader, actively participates in trade association discussions relating to new developments.

2. *Consumer Consumption Patterns*

Beverage alcohol companies are susceptible to risks relating to changes in consumer consumption patterns. Consumer consumption patterns are affected by many external influences, not the least of which is the current economic outlook and overall consumer confidence in the stability of the economy as a whole. The overall decline in consumer spending has resulted in more at home consumption, as consumers are trending away from consumption at licensed establishments, such as bars and restaurants. As a result, the industry is experiencing declines in product categories which tend to have a higher consumption rate at these establishments, such as liqueurs. Corby offers a diverse portfolio of products across all major spirit categories and various price points, which complements consumer desires and offers exciting innovation.

3. *Distribution/Supply Chain Interruption*

The Corporation is susceptible to risks relating to distributor and supply chain interruptions. Distribution in Canada is largely accomplished through the government owned provincial liquor boards, and therefore an interruption (e.g., labour strike) for any length of time may have a significant impact on Corby's ability to sell its products in a particular province and/or market.

Supply chain interruptions could impact product quality and availability, including manufacturing or inventory disruption. The Corporation adheres to a comprehensive suite of quality programs and proactively manages production and supply chains to mitigate any potential risk to consumer safety or Corby's reputation and profitability.

4. *Environmental Compliance*

Environmental liabilities may potentially arise when companies are in the business of manufacturing products, and thus are required to handle potentially hazardous materials. As Corby outsources the majority of its production, including all of its storage and handling of maturing alcohol, the risk of environmental liabilities has been reduced to an acceptably low level. In addition, Corby's owned-production facility follows strict industry guidelines for proper use and/or disposal of hazardous materials to further reduce environmental risks. Corby currently has no significant recorded or unrecorded environmental liabilities.

5. *Industry Consolidation*

In recent years, the global beverage alcohol industry has experienced a significant amount of consolidation. Industry consolidation can have varying degrees of impact, and in some cases may even create exceptional opportunities. Either way, management believes that the Corporation is well positioned to deal with this or other changes to the competitive landscape in Canada.

6. Competition

The Canadian beverage alcohol industry is extremely competitive. Competitors may take actions to establish and sustain competitive advantage. They may also affect Corby's ability to attract and retain high quality employees. The Corporation's long heritage attests to Corby's strong foundation and successful execution of its strategies. Being a leading Canadian beverage alcohol company helps facilitate recruitment efforts. Corby appreciates and invests in its employees to partner with them in achieving corporate objectives and creating value.

7. Credit Risk

Credit risk arises from deposits in cash management pools held with Pernod Ricard via Corby's participation in the Mirror Agreements (as mentioned, above, under "Related Party Transactions"), as well as credit exposure to customers, including outstanding accounts receivables. The maximum exposure to credit risk is equal to the carrying value of the Corporation's financial assets. The objective of managing counter party credit risk is to prevent losses in financial assets. The Corporation assesses the credit quality of its counter-parties, taking into account their financial position, past experience and other factors. As the large majority of Corby's accounts receivable balances are collectable from government controlled liquor boards, management believes the Corporation's credit risk relating to accounts receivable is at an acceptably low level.

8. Exposure to Interest Rate Fluctuations

The Corporation does not have any short or long-term debt facilities. Interest rate risk exists as Corby earns market rates of interest on its deposits in cash management pools. An active risk management program does not exist as management believes that changes in interest rates would not have a material impact to Corby's financial position over the long-term.

9. Exposure to Commodity Price Fluctuations

Commodity risk exists as the manufacture of Corby's products requires the procurement of several known commodities such as grains, sugar and natural gas. The Corporation strives to partially mitigate this risk through the use of longer term procurement contracts where possible. In addition, subject to competitive conditions, the Corporation may pass on commodity price changes to consumers via pricing over the long-term.

10. Foreign Currency Exchange Risk

Foreign currency risk exists as the Corporation sources a proportion of its production requirements in foreign currencies, specifically the US dollar. Partially mitigating this risk is the fact that the Corporation also sells certain of its goods in the same foreign currencies. As purchases from US based suppliers typically exceed revenues from US based customers, a decline in the Canadian dollar versus the US dollar can have a negative impact on the Corporation's financial results. In addition, and subject to competitive conditions, changes in foreign currency rates may be passed on to consumers through pricing over the long-term.

11. Third Party Service Providers

The Corporation is reliant upon third party service providers in respect of certain of its operations. It is possible that negative events affecting these third party service providers could, in turn, negatively impact the Corporation. While the Corporation has no direct influence over how such third parties are managed, it has entered into contractual arrangements to formalize these relationships. In order to minimize operating risks, the Corporation actively monitors and manages its relationship with its third party service providers.

12. *Brand Reputations*

The Corporation promotes nationally branded, non-proprietary products, as well as proprietary products. Damage to the reputation of any of these brands, or to the reputation of any supplier or manufacturer of these brands, could negatively impact consumer opinion of the Corporation or the related products, which could have an adverse impact on the financial performance of the Corporation.

13. *Valuation of Goodwill and Intangible Assets*

Goodwill and intangible assets account for a significant amount of the Corporation's total assets. Goodwill and intangible assets are subject to impairment tests which involve the determination of fair value. Inherent in such fair value determinations are certain judgements and estimates, including but not limited to, projected future sales, earnings and capital investment, discount rates, and terminal growth rates. These judgements and estimates may change in the future due to uncertain competitive, market and general economic conditions, or as changes in the business strategies and outlook of the Corporation. Given the current state of the economy, certain of the aforementioned factors affecting the determination of fair value may be impacted, and as a result the Company's financial results may be adversely affected.

The following chart summarizes Corby's goodwill and intangible assets and details the amounts associated with each brand (or basket of brands) and market:

Associated Brand	Associated Market	Value as at June 30, 2009		
		Goodwill	Intangibles	Total
Various PR brands	Canada	\$ -	\$ 57.3	\$ 57.3
Seagram Coolers	Canada	4.0	16.3	20.3
Lamb's rum	United Kingdom	1.4	11.8	13.2
Meaghers and De Kuyper liqueurs	Canada	4.5	-	4.5
		\$ 9.9	\$ 85.4	\$ 95.3

Therefore, economic factors (such as consumer consumption patterns) specific to these brands and markets, are primary drivers of the risk associated with their respective goodwill and intangible asset valuations.

14. *Employee Future Benefits*

The Corporation has certain obligations under its registered and non-registered defined benefit pension plans and other post-retirement benefit plan. There is no assurance that the Corporation's benefit plans will be able to earn the assumed rate of return. New regulations and market-driven changes may result in changes in the discount rates and other variables which would result in the Corporation being required to make contributions in the future that differ significantly from estimates. An extended period of depressed capital markets and low interest rates could require the Corporation to make contributions to these plans in excess of those currently contemplated which, in turn, could have an adverse impact on the financial performance of the Corporation.

D. *Outlook*

Corby's business strategies are designed to maximize value growth, and thus deliver exceptional profit while continuing to produce strong and consistent cash flows from operating activities. The Corporation's portfolio of owned and represented brands provides an excellent platform to achieve its current and long-term objectives moving forward.

The Corporation believes that having a focused brand prioritization strategy will permit it to capture value in those segments and markets where consumers continue to demonstrate their willingness to trade up to premium brands. Therefore, Corby's strategy is to focus its investments and leverage the long-term

growth potential of its key brands, while emphasizing less on smaller and less profitable brands. As a result, Corby will continue to invest behind its brands to promote its premium offerings where it makes the most sense and drives the most value for shareholders.

Brand prioritization requires an honest evaluation of each brand's potential to deliver upon this strategy. Particular focus has been given to evaluate the strategic importance of the Corporation's representation of third-party brands, and as a result, Corby has permitted certain of its representation contracts to expire, thus allowing Corby's marketing and sales teams to focus on maximizing value creation within the brand prioritization strategy. The Corporation believes that effective execution of its strategy will result in value creation for shareholders.

The Corporation is a strong advocate of social responsibility, especially with respect to its sales and promotional activities. Corby will continue to promote responsible consumption of its products in all its activities. The Corporation stresses its core values throughout its organization, including that of value creation, social responsibility, tradition, substance over style and character above all.

E. Employees of Corby

The Corporation employed 231 employees as at June 30, 2009.

IV. DIVIDENDS

Annual dividends paid were \$0.56 per share for the fiscal years ended June 30, 2008 and June 30, 2009, and \$2.0575 per share for the fiscal year ended June 30, 2007 (all as adjusted for the March 15, 2006 split of the Corporation's shares). The increase in the annual dividend per share amount for the fiscal year ended June 30, 2007 reflects the payment of a special dividend of \$1.50 per share on January 15, 2007, which was declared on November 14, 2006 to shareholders of record as at the close of business on November 30, 2006.

On September 26, 2008, Corby announced an amendment to its dividend policy, which will be in effect for the next three years. Subject to unanticipated developments, regular dividends will be paid quarterly, on the basis of an annual amount equal to the greater of 50% of net earnings per share in the preceding fiscal year ended June 30, and \$0.56 per share. The previously announced dividend policy of Corby was to pay quarterly dividends on the basis of an annual amount of \$0.56 per share. Further, during the next three years to October 1, 2011, Corby will not declare any special dividends, repurchase shares or make acquisitions or capital investments outside the normal course of business without the prior approval of Pernod Ricard.

As at June 30, 2009, Corby's dividend policy was a quarterly payment equal to the greater of one quarter of 50% of annual net earnings per share on the preceding year, or \$0.56 per share for the year, on all Voting Class A Common Shares and Non-Voting Class B Common Shares, payable in September, December, March, and June in each fiscal year.
