## ELECTION OF THE BOARD OF DIRECTORS

Shareholders will be asked to vote on the election of the Board of Directors. The nine nominees proposed for election are listed under the heading "Nominees for Election to the Board of Directors" beginning on page 4. Except where authority to vote for the election of directors is withheld, the persons named in the accompanying form of proxy will, unless otherwise instructed, vote in favour of the election of the nominees listed below. Management of the Corporation does not contemplate that any of the nominees will be unable, or for any reason, unwilling to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the accompanying form of proxy reserve the right to vote for another nominee in their discretion. Each director will hold office until the next annual meeting of shareholders or until the election of his or her successor, unless he or she shall resign or his or her office becomes vacant by death, removal or other circumstance. More detailed information regarding the election of directors is set out under the heading "Proposed Nominees", below.

### Majority Voting Policy

On August 19, 2008, the Board of Directors adopted a policy, which requires that any nominee for director who receives a greater number of votes "withheld" than votes "for" his or her election is required to tender his or her resignation. This policy applies only to uncontested elections, which are elections in which the number of nominees for director is equal to the number of positions available on the Board of Directors. The Corporate Governance & Nominating Committee ("CG&NC") will consider the resignation offer and will recommend to the Board of Directors whether or not to accept it. The CG&NC will be expected to recommend accepting the resignation, except in situations where extenuating circumstances would warrant the applicable director to continue to serve on the Board of Directors. The Board of Directors will act on the CG&NC's recommendation within 90 days following the applicable annual meeting and will promptly disclose by press release its decision whether to accept the director's resignation offer, including the reasons for rejecting the resignation offer, if applicable.

### Proposed Nominees

The articles of the Corporation provide that the Board of Directors shall consist of a minimum of eight and a maximum of 15 directors who are to be elected annually. The Board has fixed at nine the number of directors to be elected at the Meeting. It is proposed to nominate for election as directors of the Corporation the nine persons listed below for the Board of Directors. All of the nominees are currently directors of the Corporation and were duly elected at the last annual meeting of shareholders, except for Mr. Sánchez Villarreal, who was appointed as a director on September 1, 2015 following Mr. Leburn's retirement.

The table below provides information about the nominee, including their background experience, meeting attendance, outside public boards on which they sit and securities of the Corporation held. ## Director Tenure

The Corporation has not adopted a policy imposing an arbitrary term or retirement age limit for Directors of the Corporation because it believes that term limits have the potential to result in the loss of directors who have acute skill sets or high-performing directors, based solely on tenure or age.

As an alternative the CG&NC conducts:

1. annual evaluations on the effectiveness of each of the Board and its Committees; and
2. informal bi-annual evaluations, whereby each individual director is required to solicit feedback regarding director contribution, skill set and expertise.

In summary, each year, the CG&NC undertakes a review of the composition of the Board, the performance of the individual directors and the mandate and composition of the Committees of the Board. Recommendations for changes, if any, are established and discussed with the Chair of the CG&NC and the Board. The Board believes this process, which began in 2008, has worked well and has resulted in governance that has been effective to the changing nature of the business.

The following graph illustrates director tenure as categorized by the applicable time periods set out below:

The CG&NC believes that the Board is composed of directors with an appropriate range of tenure, in addition to a breadth of age, skills, expertise and experience, to ensure that the Board can carry out its responsibilities effectively.

## Gender Diversity

The Corporation values diversity of views, experience, skill sets, gender and ethnicity and supports the identification and nomination of female directors and candidates for Board member and executive officer positions. Gender diversity is one factor that is taken into account in identifying and selecting candidates or nominees for the Board and in considering the hiring, promotion and appointment of executive officers.

The Corporation does not have specific targets or policies regarding the identification and nomination of women on the Board and in executive officer positions, but focuses instead on choosing the most appropriate candidate for the position. However, in assessing the appropriateness of candidates for Board and executive officer appointments, the Corporation considers gender diversity as an important quality in the overall assessment process and the level of female representation on the Board and in executive officer positions is one of several factors considered.

There is currently one woman on the Board, representing 11% of the Directors of the Corporation. At this time, the Corporation does not have any female executive officers; however, this hasn't been the norm in the past. The Corporation and its majority shareholder are committed to ensuring that they attract and retain the most highly qualified and experienced directors and executive officers and recognize that gender diversity is an important consideration in creating and maintaining an effective board and senior management team.

Women comprise 43% of the Corporation's workforce. The Corporation is committed to being an organization with exceptional workplace diversity and inclusiveness programs and was once again, in 2014, seen as one of Canada's best places to work, by the Great Place to Work Institute®. The Corporation places great importance on creating a diverse workplace and has established a number of talent and engagement initiatives to support this objective to ensure that the Corporation's rich and diverse talent pool is supported and provided opportunities to grow their careers to the highest levels within the organization.

## Directors' Minimum Shareholding Requirements

Directors are permitted to acquire such shares of the Corporation over a three-year period. As set out in the table below, each independent director met the minimum shareholding requirements.

### *Hedging Prohibition*

Directors, officers and other employees of the Corporation may not, at any time, purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchangeable funds that are designed to hedge or offset a decrease in the market value of any securities of the Corporation.

### **Employee Stock Purchase Plan**

The directors may elect to invest all or part of their directorship fees in the Corporation's Employee Stock Purchase Plan. During the fiscal year ended June 30, 2015, the management directors, Messrs. O'Driscoll and Leburn participated in the Corporation's Employee Stock Purchase Plan as officers of the Corporation. See "Executive Compensation – Employee Stock Purchase Plan", below. The Corporation does not match any portion of the amount contributed by the directors. The Corporation matches contributions made by the management directors, as discussed in the "Executive Compensation – Employee Stock Purchase Plan" section, below.

### **Stock Retainer Plan**

In order to offer a total compensation package that is competitive, the independent directors receive \$2,125 quarterly (\$3,875 quarterly in the case of the Chairman of the Board) in the form of the Corporation's Stock Retainer Plan. The Corporation's Stock Retainer Plan provides for contributions made by the Corporation for the benefit of eligible directors and remitted to the administrator of the plan appointed by the Board. Such contributions are used to purchase the Corporation's Voting Class A Common Shares on behalf of the director participants to promote stock ownership among Board members with the goal of aligning directors' interests with those of the shareholders of the Corporation. The following table indicates the number and market value of Voting Class A Common Shares held by the Corporation's independent directors under the Corporation's Stock Retainer Plan as at June 30, 2015:

### **APPOINTMENT OF EXTERNAL AUDITORS**

Shareholders will be asked to vote for the appointment of the external auditors and the authorization of the directors to fix the remuneration of the external auditors. Deloitte LLP are the Corporation's external auditors and have so served since February 9, 2006. The Board of Directors, on the recommendation of the Audit Committee proposes that Deloitte LLP be re-appointed as external auditors of the Corporation for the 2016 fiscal year. Except where authority to vote with respect to the appointment of auditors is withheld, the persons named in the accompanying form of proxy will vote in favour of the appointment of Deloitte LLP. The appointment of Deloitte LLP will be decided by a simple majority of votes at the Meeting.

### External Auditors' Other Services

In fiscal years 2015 and 2014, Deloitte LLP did not provide any non-audit services to the Corporation and no tax fees were paid by the Corporation.

### Audit Fees

The aggregate fees billed by Deloitte LLP, as the Corporation's external auditors, for audit services provided during fiscal years 2015 and 2014 are set out below:

<sup>(1)</sup> Audit fees are fees for services related to the audit of the Corporation's consolidated financial statements and the review of the second quarter report to shareholders (2014 fees includes the review of the first and third quarterly reports)

<sup>(2)</sup> Audit-related fees are fees for assurance and related services that are performed by the Corporation's external auditors. These services represent the audit of the pension plans.

## EXECUTIVE COMPENSATION

This Compensation Discussion and Analysis describes and explains the significant elements of compensation awarded to, earned by, paid to, or payable to the Chief Executive Officer ("CEO"), the Chief Financial Officer ("CFO") and each of the three most highly compensated executive officers other than the CEO and CFO (collectively with the CEO and CFO, the "NEOs") of the Corporation for the fiscal year ended June 30, 2015.

### Objectives of the Executive Compensation Program

The Corporation's executive compensation policy is designed to recognize the scope and level of responsibility of each position, to provide a competitive level of total compensation to all executives and to reward superior performance and achievement.

The Corporation's executive compensation policy aims to maintain total compensation levels that are competitive with those of the Canadian consumer products sector recognizing the scope and level of responsibility of each position and to provide motivation and incentives to the Corporation's executives with the view to enhancing shareholder value and successfully implementing the Corporation's business plans, as well as improving both corporate and personal performance.

To ensure the successful implementation of this policy, the Corporation has historically retained the services of independent compensation consultants to gather information regarding the compensation practices of comparable companies in the consumer products sector in Canada, as considered necessary by the Management Resources Committee.

The components of executive compensation include base salary, short-term and long-term incentive programs, a comprehensive employee benefits plan, perquisites and the opportunity to participate in the Corporation's Employee Stock Purchase Plan, as well as a defined benefit pension plan for executives hired prior to July 1, 2010 and a defined contribution plan for executives hired on or after this date.

## Compensation Governance and Risk Mitigation

The Corporation follows a number of best practices when dealing with compensation. There is a Management Resources Committee (“MRC”) of the Board of Directors, which is responsible for reviewing, analyzing and approving all compensation for the CEO, the CFO and the other NEOs (for further information relating to the MRC, including the responsibilities, powers and operation of the committee and the name of each committee member, together with independence and experience information with respect to each of them, please see Appendix “A” entitled “Statement of Corporate Governance Practices”). The Corporation’s Human Resources department prepares materials for review by the MRC and provides data, analysis and recommendations for the MRC’s consideration regarding the Corporation’s compensation programs and policies for all executives. The MRC utilizes external compensation consultants, benchmarking data and input from management, as well as several governance processes to identify and mitigate risk and ensure the compensation program is aligned with the Corporation’s business strategy and does not incentivize executives to take undue risks.

- Annually, the MRC approves the performance objectives for the CEO, ensuring they are aligned with the Corporation’s business strategy. The CEO’s objectives are then provided to the executives, as appropriate.
- The MRC reviews annually the performance and compensation of all executives.
- The MRC recommends to the Board of Directors the approval of the salary levels, short-term incentive payments and the entitlement and participation of the executives in the long-term incentive plan.
- The long-term incentive plan is performance based with stretching targets that provide a strong pay-for-performance relationship.
- Both the short and long-term incentive plans for the executives are capped, as described in the applicable following sections.
- On a periodic basis, the MRC retains the services of an independent compensation consultant to provide an external perspective of marketplace changes and best practices related to compensation design.
- Achievement of financial objectives, the basis of which forms a significant portion of compensation, is monitored through the Audit Committee and MRC meetings. Both committees have joint membership ensuring information is available to decision makers. This includes the review of targets incorporated in short-term objectives, with management, to understand key reasons for performance against the established targets ensuring the Directors are aware of any issues or conflicting incentives for the NEO’s.

The Corporation has designed its compensation programs to provide an appropriate balance of risk and reward in relation to its overall business strategy. The compensation policies reward executives for short, medium and long-term decision making and performance but do not encourage undue risk-taking or produce excessive compensation levels.

### *Executive Compensation – Related Fees*

The MRC and the Corporation engaged Mercer (Canada) Limited (“Mercer”) to provide specific support to the MRC in evaluating the long-term incentive plan design for the Corporation’s officers during the 2011 fiscal year. Among other things considered by the MRC in making its decisions was Mercer’s support consisting of: (i) the provision of benchmark market data, and (ii) the provision of advice on the Corporation’s long-term incentive plan designs. Decisions made by the MRC, are the responsibility of the committee and may reflect factors and considerations other than the information and recommendations provided by Mercer.

Eckler Ltd. (“Eckler”) provided actuarial and investment consulting services to the Corporation for fiscal year 2015 and 2014. The aggregate fees for services provided in these years are set out below:

<b>Fees</b>	<b>2015</b>	<b>2014</b>
Actuarial and investment consulting	\$68,979	\$40,295

### *Benchmarking*

The Corporation utilized two primary comparator groups that represent the market for executive talent and include positions of similar responsibility within comparator publicly-traded Canadian companies, including those in the consumer products sector.

The two primary comparator groups utilized were:

1. MBD – Mercer Benchmark Database, which encompasses compensation data for Canadian companies in all industries and of all sizes and scopes; and
2. CCBF – Canadian Compensation and Benefits Forum (in which Corby participates), which includes 29 companies in the fast-moving consumer goods industry that are direct competitors for talent. Companies in this forum are:

<b>Comparator Group of Canadian Compensation and Benefits Forum</b>	
Agropur	Campbell Company of Canada
Canada Bread	Colgate-Palmolive Canada
Danone Inc.	Diageo Canada Inc.
Hershey's	Imperial Tobacco Canada
Johnson & Johnson	JTI Macdonald Corp
Kellogg Canada Inc.	Kimberly-Clark Corporation
Kraft Foods Inc.	L'Oreal Canada
Labatt Breweries of Canada Limited	Maple Leaf Foods

On occasion, we utilize a third comparator group comprised of Canadian publicly-traded companies with annual revenues ranging from \$130 million to \$700 million. The companies in this comparator group are, as follows:

<b>Canadian Publicly-Traded Companies with Annual Revenues Ranging from \$130 million to \$700 million</b>	
Andrew Peller Limited	Pet Valu Canada Inc.

Lululemon Athletica Inc.	West 49 Inc.
Mega Brands Inc.	

Benchmark analysis considers the overall compensation for each NEO, including base salary, short-term incentives and long-term incentives. Overall compensation is targeted between the 50<sup>th</sup> and 75<sup>th</sup> percentile of the market considering all three comparator groups listed above.

## **Elements of Executive Compensation Program**

The four primary elements of compensation are:

- Base Salary,
- Short-Term Incentives,
- Long-Term Incentives, and
- Pensionable Salary.

In addition to the primary elements, we also offer:

- Benefits and Perquisites, and
- Employee Stock Purchase Plan.

### ***Base Salary***

Base salary levels are reviewed annually based on individual performance, level of responsibility and competitive compensation levels for the Canadian market. The Corporation's practice is to target pay levels between the 50<sup>th</sup> and 75<sup>th</sup> percentile for comparable positions within the market. The objective of the base salary component is to provide fixed compensation that reflects the market value of the role and the skills and experience of the executive.

Annual salary increases are effective at the beginning of each fiscal year. The recommended annual salary increase for July 1, 2014 was 2.6%, which is based on a survey of the Canadian market for executives in the comparator groups listed above, in the "Benchmarking" section. The actual salary increases, if any, vary depending on individual performance ratings against the performance management process results, which include operational and strategic objectives, development goals and demonstration of company values. These have been set and agreed at the beginning of each fiscal year.

Mr. O'Driscoll was not given an annual increase in 2014 based on a global Pernod Ricard mandate. Messrs. Leburn, Holub and Valencia were given a 3.0 %, 3.0% and 2.3% increase respectively, based on performance. Mr. Kouchnir was given a 1.5% increase based on the targeted salary increases within his home country and performance.

### ***Short-Term Incentives***

The Corporation's executives participate in an annual short-term incentive program, the purpose of which is to reward executives for their contribution to the achievement of annual corporate goals. The target percentages for this incentive plan are reviewed and compared on an annual basis to market levels utilizing the comparator groups and source data stated previously under "Benchmarking".

The standard short-term incentive bonus target is 60% of base salary for the CEO; 30% for the CFO and VP Marketing; and 35% of base salary for the other NEOs of the Corporation. Bonus awards are based on the achievement of specific corporate goals related to operating profit levels and cash generation, as well as individual strategic objectives. Each measure has an assigned weighting (as a percent of base salary), as follows:

Position	Operating Profit	Cash Generation	Individual Strategic Objectives
CEO	24%	10%	26%
CFO and VP Marketing	11%	4%	15%
Vice-President, HR and General Counsel, Corporate Secretary & Vice-President, Public Affairs ("Vice President, Legal & Public Affairs")	12.8%	4.7%	17.5%

Threshold, target and maximum levels of performance are established for cash generation and operating profit measures. The Corporation sets the target awards to be challenging, but reasonably attainable. The maximum award for both cash generation and operating profit is intended to be very difficult to achieve. The threshold performance level is 99% of target achievement for cash generation with a maximum award achieved at 102% of target. The threshold performance level is 90% of target achievement for operating profit with a maximum award achieved at 110% of target. The payout is pro-rated for achievement between the above ranges; achievement on operating profit must be at least 90% for any payout to occur.

Based on historical analysis, the Corporation believes the target award is attainable, but not easily achieved. There is a remote possibility (less than 5%) that the maximum award for operating profit could be attained.

At the beginning of each fiscal year, corporate objectives and the CEO's individual strategic objectives are determined and tabled before the MRC and the Board of Directors for review and approval.

To accurately describe the basis upon which each NEO is compensated would require a significant level of detail and, as the Corporation is the only publicly-traded spirits company in Canada, disclosing any of these individual strategic objectives would seriously prejudice the Corporation's interests by providing competitors with information regarding the Corporation's business performance targets and other sensitive information.

For the July 1, 2014 to June 30, 2015 fiscal year, overall, the Corporation's goals relating to operating profit did not achieve the target level of performance, while cash generation was achieved. The CEO achieved 88% of the individual strategic portion of his bonus; the CFO achieved 97%; the Vice-President, Marketing achieved 97%; the Vice-President, Human Resources achieved 100%; and the Vice-President, Legal & Public Affairs achieved 97%. These achievements resulted in a payout of 46.73% of base salary for the CEO; 25.20% for the CFO; 24.75% for the Vice-President, Marketing; 29.82% for the Vice-President, Human Resources; and 29.30% for the Vice-President, Legal & Public Affairs.

The foregoing payments represent the following percentages of total compensation for each NEO: 15.96% for the CEO; 11.73% for the CFO; 6.97% for the Vice-President, Marketing, 10.72% for the Vice-President, Human Resources; and 10.73% for the Vice-President, Legal & Public Affairs.

The individual strategic objectives represent the following percentages of total compensation for each NEO: 7.67% for the CEO; 6.75% for the CFO; 3.97% for the Vice-President, Marketing; 6.30% for the Vice-President, Human Resources; and 6.22% for the Vice-President, Legal & Public Affairs.

### ***Long-Term Incentives (RSU)***

Beginning in fiscal 2007, the Corporation implemented a long-term incentive plan consisting of performance-contingent restricted share units ("RSU"). This plan replaced the Corporation's previous long-term share appreciation rights plan. The long-term incentive plan is designed to

motivate the executives to achieve long-term financial success of the Corporation and to further align the interests between executives and shareholders. In May, 2011 the Corporation commissioned Mercer Associates to complete a review of the Restricted Share Units Plan (“RSU Plan”) to ensure alignment with Canadian market norms and propose changes if required. Mercer’s findings were reported to the MRC in August, 2011. The MRC agreed to the following changes to the RSU Plan: 1. Adopting two year performance based vesting targets (rather than the previous one year performance based vesting target) to ensure the RSU Plan is driving long-term performance; 2. Provide upside for above target performance achievement (maximum of 50% increase in RSU grant if the performance target is exceeded by 10%) to align with the typical market practice. The first RSUs were granted under the RSU Plan of the Corporation on September 8, 2006. The second and third RSUs were granted under the RSU Plan on October 24, 2007 and on August 27, 2008, respectively. No RSUs were granted in the fiscal year ended June 30, 2010, due to difficult trading conditions. The fourth RSU was granted on August 26, 2010. The fifth, sixth, seventh and eighth RSUs containing the above amendments were granted on August 25, 2011, August 29, 2012, August 30, 2013, and August 29, 2014, respectively.

RSUs reflect the market value of the Voting Class A Common Shares of the Corporation. RSUs vest and become payable to plan participants at the end of a three-year vesting period, subject to the achievement of pre-determined corporate performance targets relating to operating profit. Unvested RSUs will attract Dividend Equivalent Units whenever regular or special cash dividends are paid on the Voting Class A Common Shares of the Corporation. Dividend Equivalent Units will be immediately reinvested into additional RSUs, which will vest and become payable at the end of the three-year vesting period, subject to the same performance conditions as the original RSU award. Upon vesting, participants are eligible to receive the cash value of their RSU holdings, including the original RSU grant and any additional RSUs earned as a result of the reinvestment of Dividend Equivalent Units. Payments are made directly by the Corporation to participants in Canadian funds and, when made, all amounts in respect of RSUs and Dividend Equivalent Units which have vested are fully discharged. RSUs do not entitle participants to acquire any rights or entitlements as a shareholder of the Corporation.

Costs associated with the Pernod Ricard long-term incentives are paid by Pernod Ricard and are not transferred to Corby.

## ***Pensionable Salary***

Pensionable salary is determined based on the average of the best 36 consecutive months of pensionable earnings (for pension benefit purposes, pensionable earnings equal the basic salary, excluding bonuses or other forms of remuneration). The following table sets forth the annualized basic salary as at June 30, 2015 for each of the NEOs. The amount of annual pension payable at normal retirement (age 65) is established as a percentage of annualized pensionable salary (maximum 70%).

<b>Name</b>	<b>Annualized basic salary for the fiscal year ended June 30, 2015</b>
R. Patrick O'Driscoll	N/A
John Leburn	N/A
Maxime Kouchnir	N/A
Paul G. Holub	\$253,368
Marc Valencia	\$254,976

Messrs. O'Driscoll, Leburn and Kouchnir participated in the pension plans of their home countries in the United Kingdom, United Kingdom, and France respectively. They do not participate in Corby's Executive Pension Plans.

## ***Benefits and Perquisites***

Although they are not considered to be a primary element of Corby's compensation program, the NEOs are entitled to receive various benefits and perquisites, including medical and dental benefits, long-term and accidental disability benefits, life insurance, product allowance (these benefits are provided to all employees), company car, club memberships, and financial counselling/tax preparation.

## ***Employee Stock Purchase Plan***

The Corporation's Employee Stock Purchase Plan is not a primary element of Corby's compensation program; however, it enables the NEOs, as well as other employees of the Corporation, to acquire Voting Class A Common Shares by contributing 2% to 10% of their salary through payroll deductions and in so doing, further aligns the interests of executives and shareholders. The Corporation contributes 50% of the amount contributed by the employee. During fiscal year 2015, Messrs. O'Driscoll, Leburn, Holub, and Valencia participated in the Employee Stock Purchase Plan. Mr. Kouchnir is not eligible to participate in the Employee Stock Purchase Plan.

Messrs. O'Driscoll and Leburn were invited to participate in the Employee Stock Purchase Plan on January 1, 2010 and January 10, 2012 respectively, with a maximum contribution of 5% of their salary and a matching corporate contribution of 50% of the amount contributed by them.

## **SHAREHOLDER RETURN PERFORMANCE GRAPHS**

The line graphs below compare the yearly cumulative total shareholder return on the Corporation's Voting Class A Common Shares and Non-Voting Class B Common Shares with the cumulative total return of the S&P/TSX Composite Index and the Consumer Staples Sub-Index for the five-year period commencing June 30, 2010 and ending June 30, 2015.

**Non-Voting Class B Share Performance**

\*Assumes (i) that the initial value of the investment in each of the Corporation's securities and units of the TSX 300 Index was \$100 on June 30, 2010, and (ii) reinvestment of dividends. All prices for the Corporation's Non-Voting Class B Common Shares were taken from the TSX's records.

It is difficult to show a direct comparison between the trend in Corby's share price and the trend in the NEOs' compensation over the five-year period. Messrs. Leburn and Kouchnir joined the Corporation on November 1, 2011, and January 1, 2014 respectively, and total compensation for these NEOs has not been reported prior to their start date with the Corporation. In order to ensure that the Corporation is able to retain its key talent, compensation for the NEOs has been consistent with the market pricing philosophy explained in detail under the heading "Compensation Governance & Risk Mitigation" on page 14. The element of the NEOs' total compensation that directly correlates with the shareholder value is the long-term incentive. As demonstrated in the graph above, the long-term incentives received by the NEOs directly fluctuates with the Corporation's share price performance. The following chart shows the historical value of the long-term incentives (RSUs) that were granted and vested during the five-year period:

RSUs vest subject to the achievement of performance vesting measures under the RSU Plan. Messrs. Leburn and Kouchnir are not eligible for RSU grants.

<sup>(3)</sup> The Corporation does not have any option-based awards.

<sup>(4)</sup> The annual incentive for each of Messrs. O'Driscoll, Leburn and Kouchnir is paid in each of their home country's currency, UK pound sterling, UK pound sterling and European Euro respectively. Exchange rates used to calculate the Canadian dollar equivalent are the rates quoted by the Bank of Canada as its exchange rate on June 30, 2015: UK pound sterling at 1.9614, European Euro at 1.3911.

<sup>(5)</sup> Pension value as stated was calculated by Eckler and is detailed in the "Defined Benefit (DB) Retirement Plans Table" in the "Pension Plan Benefits" section, below. Pension value for each of Messrs. O'Driscoll, Leburn and Kouchnir, are the pension contributions the Corporation made to each of their pension plans in their home countries, the United Kingdom, United Kingdom and France respectively.

<sup>(1)</sup> The Corporation does not have any option-based awards.

## PENSION PLAN BENEFITS

The NEOs participate in the Corporation's defined benefit pension plan, except for Messrs. O'Driscoll, Leburn and Kouchnir. In addition, the NEOs of the Corporation have entered into Supplementary Executive Retirement Agreements ("SERP") of the Corporation, except for Messrs. O'Driscoll, Leburn and Kouchnir.

An amendment to the Corporation's defined benefit pension plan was made effective January 1, 2014 pursuant to which the NEOs participating in the plan are required to make annual contributions. The participants are required to contribute:

- 2% of pensionable earnings up to the Years Maximum Pensionable Earning ("YMPE"). For calendar year 2015 the YMPE was \$53,600.
- 5% of pensionable earnings that are between the YMPE and the Maximum Earnings Base. Maximum Earnings Base is defined as the Income Tax Defined Benefit ("ITDBA") limit divided by 2%. For calendar year 2015 the Maximum Earnings Base was \$140,945.
- 0% of pensionable earnings in excess of the Maximum Earnings Base.

The amounts disclosed in the table, below, are the approximate values of retirement plan

obligations accrued as of June 30, 2015, the compensation costs incurred during the fiscal year, and the amounts payable upon retirement of the NEOs. These amounts are all based on assumptions and contractual entitlements, which may change over time. The major assumptions used in making these estimates are consistent with those used to value all of Corby's post-employment benefit obligations and are disclosed in Note 10 of Corby's consolidated financial statements for the year ended June 30, 2015.

### **Defined Benefit (DB) Retirement Plans Table**

<sup>(5)</sup> Compensatory elements include service cost, impact of plan amendments, if any, and the impact of changes to compensation from the previous year that differed from the previous year's assumptions.

<sup>(6)</sup> Non-compensatory elements include change in measurement assumptions (not related to plan amendments), such as interest rates, salary increase or mortality, if any. On June 30, 2015, the interest rate was 3.85% per annum and on June 30, 2014, the interest rate was 4.40% per annum.

<sup>(7)</sup> Measurement of accrued obligation reflects the accounting assumptions used in Corby's financial statements.

### **Defined Benefits - Pension Benefits**

The amount of annual pension payable at normal retirement (age 65) is established as a percentage of pensionable salary (maximum 70%), which is determined, as follows:

For executive officers, who joined the SERP before January 1, 1998:

- 4% for each year of pensionable service up to 10 years.
- 2% for each year of pensionable service in excess of 10 but not beyond 20 years.
- 2/3% for each year of pensionable service in excess of 20 but not beyond 35 years.

For executive officers, including the NEOs, who commenced employment with the Corporation prior to July 1, 2010 and joined the SERP on or after January 1, 1998:

- 2% for each year of pensionable service prior to joining the SERP.
- 3% for each year of pensionable service thereafter.

Pension payments are not subject to any deduction for social security or other offset amounts, such as Canada Pension Plan or Quebec Pension Plan amounts.

### *Early Retirement Allowance*

Executives may elect to retire early; on or after age 55. The total pension shall be reduced by three percent for each year by which early retirement precedes age 60 (three percent per year by which early retirement precedes age 65, in case of early retirement with less than 10 years of service).

### **Termination of Service**

In the case of termination prior to age 55, the executive will be entitled to a deferred pension commencing from the executive's 55<sup>th</sup> birthday.

### ***Defined Contribution (DC) Benefits Design***

For executive officers, including the NEOs, who commenced employment with the Corporation on or after July 1, 2010 and joined the SERP on or after July 1, 2010:

Contributions are automatically vested and consist of:

- Corporation Base Contributions - 8% of earnings (base salary, and lump-sum merit pay)
- Executive Optional Contributions – choice of 0%, 1%, 2%, 3% or 4% of earnings
- Corporation Matching Contribution - 100% of the executive optional contributions

An account is maintained for each executive member that includes Corporation and executive contributions plus investment income. Contributions are invested in one or more investment options available in the Plan as directed by the executive. Aggregate contributions that exceed the lesser of 18% of executive's compensation or money purchase limit for the calendar year as defined by Income Tax Act are redirected to a Trusteed Employees Profit Sharing Plan for Employees.

### *Retirement*

Normal retirement is age 65; the executive may elect to retire early up to 10 years before his or her normal retirement date.

Upon retirement, the executive must transfer the value of his or her member's account to one of the following, as permitted by the Applicable Legislation:

- to an insurer to purchase an immediate or deferred life annuity;
- to an insurer to purchase any other form of retirement annuity permitted under the Income Tax Act;
- another registered pension plan; or
- a Prescribed Retirement Savings Arrangement.

### *Termination of Service*

In the case of termination of employment, the executive must transfer the value of his or her member's account to one of the following, as permitted by the Applicable Legislation:

- a Prescribed Retirement Savings Arrangement;
- another registered pension plan;
- to an insurer to purchase an immediate or deferred life annuity; or
- to an insurer to purchase any other form of retirement annuity permitted under the Income Tax Act.

## TERMINATION AND CHANGE OF CONTROL BENEFITS

The chart below sets out the estimated incremental payments and benefits that each NEO would be entitled to in the event of termination, without cause, at June 30, 2015. There is no change of control provision in the employment agreements. The executives of the Corporation, including the NEOs (other than Messrs. O'Driscoll, Kouchnir and Leburn) have entered into Executive Service Agreements with the Corporation for 12 months' salary, with the exception of Mr. Holub's agreement which is for 24 months' salary. Messrs. O'Driscoll, Kouchnir and Leburn have expatriate employment letters with Pernod Ricard and, other than with respect to the RSU Plan for Mr. O'Driscoll, their termination provisions are with their home countries, namely, the United Kingdom and France. Costs associated with these provisions are paid by Pernod Ricard and are not transferred to Corby. The expatriate employment letters are for a predictable period from 3-5 years.

TERMINATION WITHOUT CAUSE BENEFITS <sup>(1)</sup>						
Name	Total (\$)	Contractual Severance		Benefits (\$)	Long-term Incentives <sup>(3)</sup> (\$)	Pension (\$)
		Salary (\$)	Short-term Incentives <sup>(2)</sup> (\$)

Marc Valencia	430,927	254,976	0	11,395	164,556	0

<sup>(1)</sup> Assuming without cause termination on June 30, 2015.

<sup>(2)</sup> Eligibility for short-term incentives would cease as at termination date.

<sup>(3)</sup> 100% of the RSUs granted August 2012, two-thirds of the RSUs granted August 2013 and one-third of the RSUs granted August 2014, plus reinvested dividends, will vest upon termination date (subject to adjustment for performance condition attainment). Calculation is based on the TSX closing price as at June 30, 2015 of \$21.33 per share. Since Mr. O'Driscoll holds RSUs from the Corporation, they will have to be paid out based on the percentages stated above. The balance of his salary and benefits will be paid by his Home Country.

## APPENDIX “A”

### CORBY SPIRIT AND WINE LIMITED

(the “Corporation” or “Corby”)

#### STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The Corporation is committed to a high standard of corporate governance practices. The Board of Directors supports the Corporation’s efforts to align with the recommendations currently in effect and contained in *National Policy 58-201: Corporate Governance Guidelines* and *National Instrument 58-101: Disclosure of Corporate Governance Practices* (“NI 58-101”) with the objective of providing greater transparency to Canadian capital markets regarding public company corporate governance practices. The Board will continue to monitor developments in this area carefully and will respond appropriately to any future changes.

#### **Board of Directors**

##### ***Board Mandate***

The Board of Directors of the Corporation assumes stewardship of and recognizes that it is ultimately responsible for ensuring that the business and affairs of the Corporation are managed properly to protect and enhance shareholder value, including the financial viability of the business. Among its numerous duties and responsibilities, the Board:

- oversees the strategic planning process, including approval of the strategic plan and corporate performance objectives of the Corporation;
- determines matters of corporate policy, assesses management’s execution of these policies and reviews the results achieved;
- directs management to implement systems to address risks and to periodically report to the Board on these systems and risks;
- on the advice and recommendations of the Management Resources Committee, appoints officers and guides existing management resources and succession planning; and
- oversees the communications policy of the Corporation and reviews and, where necessary, approves (directly or through one of the Board Committees) material disclosure documents of the Corporation, such as annual and quarterly financial statements, management’s discussion and analysis (“MD&A”), management proxy circulars for annual meetings, and annual information forms.

In addition, the Board has adopted terms of reference that were designed to assist the Board and management in clarifying their respective responsibilities and ensuring effective communication between them. A copy of the terms of reference of the Board of Directors is attached hereto as Appendix “B” to this Management Proxy Circular.

The Board has plenary power. Any responsibility not exclusively delegated to management or to a Committee of the Board remains with the Board.

## ***Board Composition and Independence***

The Board's objective with respect to its composition is twofold: (i) to have a sufficient range of skills, expertise and experience to enable the Board to carry out its functions effectively, and (ii) to have directors that are fairly reflective of the investment that shareholders, other than the significant shareholder, have in the Corporation.

The Board is composed of nine directors, a number considered appropriate for facilitating effective dialogue and decision making. Generally, a director is considered to be "independent" if he or she has no direct or indirect material relationship with the corporation that could, in the view of the board, be reasonably expected to interfere with the exercise of the director's independent judgment. Four of the Corporation's directors are considered independent under this analysis, namely, Ms. Nielsen and Messrs. Llewellyn, Lussier and McCarthy.

The remaining directors of the Corporation are not independent under NI 58-101 by virtue of their relationship with the Corporation. Mr. O'Driscoll is the President and Chief Executive Officer ("CEO") of the Corporation. Mr. Leburn is currently the Vice-President and Chief Financial Officer ("CFO") of the Corporation. Messrs. Dréano and Pourchet were nominated by the Corporation's significant shareholder, Hiram Walker & Sons Limited ("HWSL"), and are employees of an affiliate of HWSL's parent company, Pernod Ricard S.A. Mr. Boulay was nominated by the Corporation's significant shareholder and has served as external legal counsel of Pernod Ricard Americas and Pernod Ricard Canada Ltée since 1996, and as a director of each of Allied Domecq Canada Ltd., Hiram Walker–Gooderham & Worts Ltd., Hiram Walker & Sons Limited, Pernod Ricard Canada Ltée since 2006, and Seagram China Ltd. since 2009. As a result of the technical reading of NI 58-101, a majority of the directors of the Corporation is not considered "independent" within the meaning of NI 58-101.

Further, the Board is composed of a majority of non-management directors. Of the Corporation's nine directors, only Messrs. O'Driscoll and Leburn are management directors.

The Board has established procedures to enable it to function independently of management and to facilitate open and candid discussion among the independent directors and is satisfied that it can exercise independent judgment in carrying out its responsibilities. For instance,

- the Chairman of the Board, Mr. George McCarthy, is an independent director and has, as primary function, the duty to facilitate the operations and deliberations of the Board and the satisfaction of the Board's responsibilities under its terms of reference;
- the Board meets on a regular basis with the CEO and without other management present, and it also meets from time to time without the CEO;
- the Board expects management to be responsible for the operations of the business while respecting authorized financial limits and adhering to the strategic plan, operational budget and approved corporate policies; and
- the Board expects to be advised on a regular basis as to the results being achieved and in keeping with evolving conditions to be presented for approval alternative plans and strategies proposed to be implemented.

The Independent Committee of the Board, which is constituted of all of the independent directors of the Corporation, is responsible, among other things, for ensuring that the Board functions independently of management and exercises independent judgment in carrying out its responsibilities. See "Independent Committee" under "Committees of the Board", below, for details concerning the Independent Committee.

For information regarding the attendance record of each director for all Board and Committee meetings held since the most recently completed financial year, please see page 8 of this Management Proxy Circular under the heading “Attendance of Directors at 2015 Board and Committee Meetings”.

### **Committees of the Board**

The Board discharges its responsibilities directly, on the advice and recommendations of its Committees. The Board has established five standing Committees and delegates certain of its responsibilities to each of the Committees. In this regard, each Committee is mandated to report to the Board and to carry out certain responsibilities. However, all decisions, recommendations and proposals require full Board acceptance. The Board has approved terms of reference that govern the Board and each of the Committees of the Board.

The five standing Committees of the Board are: Audit Committee, Corporate Governance & Nominating Committee, Independent Committee, Management Resources Committee, and Retirement Committee. A summary of each Committee’s mandate is, as follows:

#### ***Audit Committee***

The principal functions of the Audit Committee are to review the annual and interim financial statements, as well as the MD&A section of the Corporation’s annual report containing financial information prior to its approval by the Board. The Audit Committee receives adequate and regular updates from management on all issues relating to audits, financial statements, MD&A, annual and interim earnings, press releases, procedures for disclosure of financial information and disclosure controls. The Audit Committee also considers the scope and extent of the annual audit and evaluates the external auditors’ performance for the preceding fiscal year, reviews their fees and makes recommendations to the Board; examines the presentation and impact of significant risks and key management estimates and judgments that may have a material impact on the Corporation’s financial reporting; examines the adequacy of the Corporation’s internal accounting control procedures and systems; meets as required and at least quarterly, may exercise all the powers of the Board and deals with Board issues between regular Board meetings with certain exceptions prescribed by law; meets periodically with management, the internal auditors and the external auditors to receive reports on internal accounting controls and audit results and to review accounting principles and practices; pre-approves non-audit services not prohibited by law to be performed by external auditors in conformity with the terms of any authorization delegated to them by the Audit Committee; and oversees the integrity of the Corporation’s management information systems.

The Audit Committee is currently composed of the independent directors and Mr. Pourchet, and is chaired by Mr. Llewellyn. During the period from July 1, 2014 to June 30, 2015, the Audit Committee met four times.

For additional information concerning the Audit Committee, please refer to the section entitled “Audit Committee” contained in the Annual Information Form of the Corporation dated September 21, 2015.

#### ***Corporate Governance & Nominating Committee***

The Corporate Governance & Nominating Committee is responsible for overseeing and making recommendations to the Board of Directors with respect to the Corporation’s approach to maintaining a high standard of corporate governance, including, but not limited to, determining a board size that promotes effectiveness and efficiency; assessing the effectiveness of the Board; assessing the performance of each director on an on-going basis; providing orientation designed

to acquaint new directors with the Corporation and its governance process; determining directors' remuneration after considering time commitment, compensation provided by comparable companies and risks and responsibilities associated with the position; and authorizing individual directors to engage outside advisors at the expense of the Corporation.
