The form of proxy also confers discretionary voting authority on those persons designated therein with respect to amendments to the proposals identified in the Notice of Meeting and with respect to other matters which may properly come before the Meeting. If such amendments or other matters properly come before the Meeting, the management nominees designated in such form of proxy will vote the Voting Class A Common Shares represented thereby at their discretion, in respect of such amendments or other matters.

ELECTION OF THE BOARD OF DIRECTORS

Shareholders will be asked to vote on the election of the Board of Directors. The nine nominees proposed for election are listed under the heading "Nominees for Election to the Board of Directors" beginning on page 6. Except where authority to vote for the election of directors is withheld, the persons named in the accompanying form of proxy will, unless otherwise instructed, vote in favour of the election of the nominees listed below. Management of the Corporation does not contemplate that any of the nominees will be unable, or for any reason, unwilling to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the accompanying form of proxy reserve the right to vote for another nominee in their discretion. Each director will hold office until the next annual meeting of shareholders or until the election of his or her successor, unless he or she shall resign or his or her office becomes vacant by death, removal or other circumstance. More detailed information regarding the election of directors is set out under the heading "Proposed Nominees" on page 5.

Skills

Each director has experience in leadership and strategic planning and collectively, they hold the skills and expertise that enable the Board to carry out its responsibilities. The skills matrix set out below is used to assess the Board's overall strength and to assist in the Board's ongoing renewal process, which balances the need for experience and knowledge of the Corporation's business with the benefit of board renewal and diversity. Although the directors have an extensiveness of experience in many areas, the skills matrix lists 10 important qualifications.

Director Tenure

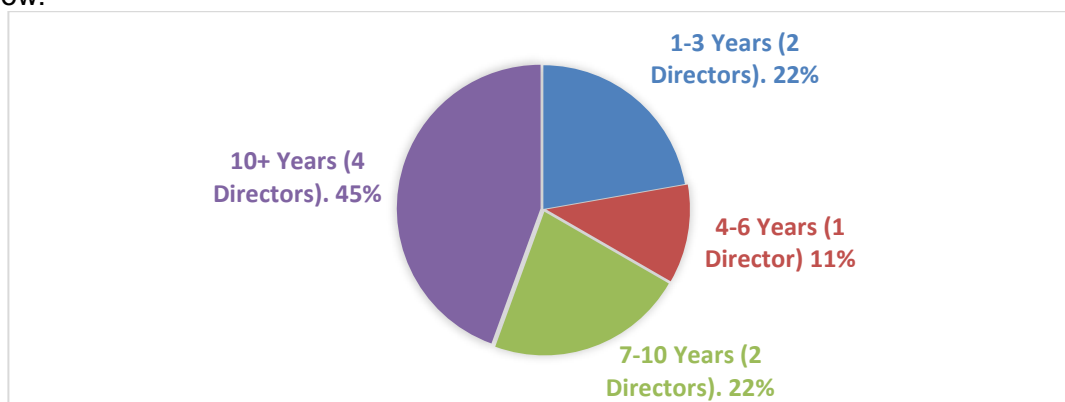

The Corporation has not adopted a policy imposing an arbitrary term or retirement age limit for Directors of the Corporation because it believes that term limits have the potential to result in the loss of directors who have essential skill sets or high-performing directors, based solely on tenure or age.

As an alternative, the Corporate Governance & Nominating Committee ("CG&NC") conducts:

1. annual evaluations on the effectiveness of each of the Board and its Committees; and
2. informal bi-annual evaluations, whereby each individual director is required to solicit feedback regarding director contribution, skill set and expertise.

In summary, each year, the CG&NC undertakes a review of the composition of the Board, the performance of the individual directors and the mandate and composition of the Committees of the Board. Recommendations for changes, if any, are established and discussed with the Chair of the CG&NC and the Board. The Board believes this process, which began in 2008, has worked well and has resulted in governance that has been effective to guide the changing nature of the business.

The following graph illustrates director tenure as categorized by the applicable time periods set out below:

The CG&NC believes that the Board is composed of directors with an appropriate range of tenure, in addition to a breadth of age, skills, expertise and experience, to ensure that the Board can carry out its responsibilities effectively.

Gender Diversity

The Corporation values diversity of views, experience, skill sets, gender and ethnicity and supports the identification and nomination of female directors and candidates for Board member and executive officer positions. Gender diversity is one factor that is taken into account in identifying and selecting candidates or nominees for the Board and in considering the hiring, promotion and appointment of executive officers.

The Corporation does not have specific targets or policies regarding the identification and nomination of women on the Board and in executive officer positions but focuses instead on choosing the most appropriate candidate for the position. However, in assessing the appropriateness of candidates for Board and executive officer appointments, the Corporation considers gender diversity as an important quality in the overall assessment process and the level of female representation on the Board and in executive officer positions is one of several factors considered.

There are currently two women on the Board, representing 22% of the Directors of the Corporation. At this time, the Corporation has three female executive officers, representing 43% of the Corporation's executive officers. The Corporation is committed to ensuring that it attracts and retains the most highly qualified and experienced directors and executive officers and recognizes that gender diversity is an important consideration in creating and maintaining an effective board and senior management team.

Women comprise 49% of the Corporation's workforce. The Corporation is committed to being an organization with exceptional workplace diversity and inclusiveness programs and was once again, in 2018, identified as one of Canada's best places to work by the Great Place to Work Institute®. The Corporation places great importance on creating a diverse workplace and has established a number of talent and engagement initiatives, including a balance and inclusiveness committee, to support this objective to ensure that the Corporation's rich and diverse talent pool is supported and provided opportunities to grow their careers to the highest levels within the organization.

Majority Voting Policy

On August 19, 2008, the Board of Directors adopted a policy, which requires that any nominee for director who receives a greater number of votes "withheld" than votes "for" his or her election is required to tender his or her resignation. This policy applies only to uncontested elections, which are elections in which the number of nominees for director is equal to the number of positions available on the Board of Directors. The CG&NC will consider the resignation offer and will recommend to the Board of Directors whether or not to accept it. The CG&NC will be expected to recommend accepting the resignation, except in situations where extenuating circumstances would warrant the applicable director to continue to serve on the Board of Directors. The Board of Directors will act on the CG&NC's recommendation within 90 days following the applicable annual meeting and will promptly disclose by press release its decision whether to accept the director's resignation offer, including the reasons for rejecting the resignation offer, if applicable.

EXECUTIVE COMPENSATION

This Compensation Discussion and Analysis describes and explains the significant elements of compensation awarded to, earned by, paid to, or payable to the Chief Executive Officer ("CEO"), the Chief Financial Officer ("CFO") and each of the three most highly compensated executive officers other than the CEO and CFO (collectively with the CEO and CFO, the "NEOs") of the Corporation for the fiscal year ended June 30, 2018.

Objectives of the Executive Compensation Program

The Corporation's executive compensation policy is designed to recognize the scope and level of responsibility of each position, to provide a competitive level of total compensation to all executives and to reward superior performance and achievement.

The Corporation's executive compensation policy aims to maintain total compensation levels that are competitive with those of the Canadian consumer products sector recognizing the scope and level of responsibility of each position and to provide motivation and incentives to the Corporation's executives with the view to enhancing shareholder value and successfully implementing the Corporation's business plans, as well as improving both corporate and personal performance.

To ensure the successful implementation of this policy, the Corporation has historically retained the services of independent compensation consultants to gather information regarding the compensation practices of comparable companies in the consumer products sector in Canada, as considered necessary by the Management Resources Committee.

The components of executive compensation include base salary, short-term and long-term incentive programs, a comprehensive employee benefits plan, perquisites and the opportunity to participate in the Corporation's Employee Stock Purchase Plan, as well as a defined benefit pension plan for executives hired prior to July 1, 2010 and a defined contribution pension plan for executives hired on or after this date.

Compensation Governance and Risk Mitigation

The Corporation follows several best practices when dealing with compensation. There is a Management Resources Committee ("MRC") of the Board of Directors, which is responsible for reviewing, analyzing and approving all compensation for the CEO, the CFO and the other NEOs (for further information relating to the MRC, including the responsibilities, powers and operation of the committee and the name of each committee member, together with independence and experience information with respect to each of them, please see Appendix "A" entitled "Statement of Corporate Governance Practices"). The Corporation's Human Resources department prepares materials for review by the MRC and provides data, analysis and recommendations for the MRC's consideration regarding the Corporation's compensation programs and policies for all executives. The MRC utilizes external compensation consultants, benchmarking data and input from management, as well as several governance processes to identify and mitigate risk and ensure the compensation program is aligned with the Corporation's business strategy and does not incentivize executives to take undue risks.

- Annually, the MRC approves the performance objectives for the CEO, ensuring they are aligned with the Corporation's business strategy. The CEO's objectives are then provided to the executives, as appropriate.
- The MRC reviews annually the performance and compensation of all executives.
- The MRC recommends to the Board of Directors the approval of the salary levels, short-term incentive payments and the entitlement and participation of the executives in the long-term incentive plan.
- The long-term incentive plan is performance based with stretching targets that provide a strong pay-for-performance relationship.
- Both the short and long-term incentive plans for the executives are capped, as described in the applicable following sections.
- On a periodic basis, the MRC retains the services of an independent compensation consultant to provide an external perspective of marketplace changes and best practices related to compensation design.
- Achievement of financial objectives, the basis of which forms a significant portion of compensation, is monitored through the Audit Committee and MRC meetings. Both committees have joint membership ensuring information is available to decision makers. This includes the review of targets incorporated in short-term objectives, with management, to understand key reasons for performance against the established targets ensuring the Directors are aware of any issues or conflicting incentives for the NEO's.

The Corporation has designed its compensation programs to provide an appropriate balance of risk and reward in relation to its overall business strategy. The compensation policies reward executives for short, medium and long-term decision making and performance but do not encourage undue risk-taking or produce excessive compensation levels.

Executive Compensation – Related Fees

Eckler Ltd. ("Eckler") provided actuarial and investment consulting services to the Corporation for fiscal years 2018 and 2017. Eckler was originally retained more than 20 years ago. The aggregate fees for services provided in this and the prior year are set out below.

Fees	2018	2017
Actuarial and investment consulting	\$41,187	\$40,648

Benchmarking

The Corporation utilized two primary comparator groups that are relevant as they represent the market for executive talent and include positions of similar responsibility within comparator publicly-traded Canadian companies, including those in the consumer products sector.

The two primary comparator groups utilized were:

1. MBD – Mercer Benchmark Database, which encompasses compensation data for Canadian companies in all industries and of all sizes and scopes; and
2. CCBF – Canadian Compensation and Benefits Forum (in which Corby participates), which includes 30 companies in the fast-moving consumer goods industry that are direct competitors for talent. Companies in this forum are:

Comparator Group of Canadian Compensation and Benefits Forum	
Agropur	Campbell Company of Canada
Canada Bread	Colgate-Palmolive Canada
Con Agra Foods	Danone Inc
Hershey's	Imperial Tobacco Canada
Johnson & Johnson	JTI Macdonald Corp
Kimberly-Clark Corporation	Labatt Breweries of Canada Limited
L'Oreal Canada	Mars / Wrigley Canada
Maple Leaf Foods	McCain Foods Canada
Molson Coors Brewing Company	Mondelez Canada Inc.
Nestle	Parmalat
PepsiCo Canada ULC	Philip Morris International
Procter & Gamble Inc.	Reckitt Benckiser Group plc
Saputo Inc.	SC Johnson & Son, Limited
Sleeman Breweries Ltd	The Coca-Cola Company
Unilever Canada Inc.	

Benchmark analysis considers the overall compensation for each NEO, including base salary, short-term incentives and long-term incentives. Overall compensation is targeted between the 50th and 75th percentile of the market considering all two comparator groups listed above.

Elements of Executive Compensation Program

The four primary elements of compensation are:

- Base Salary,
- Short-Term Incentives,
- Long-Term Incentives, and
- Pensionable Salary.

In addition to the primary elements, we also offer:

- Benefits and Perquisites, and
- Employee Stock Purchase Plan.

Base Salary

Base salary levels are reviewed annually based on individual performance, level of responsibility and competitive compensation levels for the Canadian market. The Corporation's practice is to

target pay levels between the 50th and 75th percentile for comparable positions within the market. The objective of the base salary component is to provide fixed compensation that reflects the market value of the role and the skills and experience of the executive.

Annual salary increases are effective at the beginning of each fiscal year. The recommended annual salary increase for July 1, 2017 was 3.0%, which is based on a survey of the Canadian market for executives in the comparator groups listed above, in the “Benchmarking” section. The actual salary increases, if any, vary depending on individual performance ratings against the performance management process results, which include operational and strategic objectives, development goals and demonstration of company values. These have been set and agreed at the beginning of each fiscal year.

Messrs. O’Driscoll and Sanchez were given a 2.75% and 3.5% annual increase respectively in 2017 based on targeted salary increases within their home country and performance. Messrs. Valencia and Cote were each given a 3.0% increase, based on performance. Ms. Martin joined the Corporation in September 2017, as Vice President, Marketing and therefore was not eligible for an annual increase.

Short-Term Incentives

The Corporation’s executives participate in an annual short-term incentive program, the purpose of which is to reward executives for their contribution to the achievement of annual corporate goals. The target percentages for this incentive plan are reviewed and compared on an annual basis to market levels utilizing the comparator groups and source data stated previously under “Benchmarking”.

The standard short-term incentive bonus target is 60% of base salary for the CEO; 30% for the CFO and VP Marketing; and 35% of base salary for the other NEOs of the Corporation. Bonus awards are based on the achievement of specific corporate goals related to operating profit levels and cash generation, as well as individual strategic objectives. Each measure has an assigned weighting (as a percent of base salary), as follows:

Position	Operating Profit	Cash Generation	Individual Strategic Objectives
CEO	24%	10%	26%
CFO and VP Marketing	11%	4%	15%
General Counsel, Corporate Secretary & Vice-President, Public Affairs (“Vice President, Legal & Public Affairs”) and Vice President, Sales	12.8%	4.7%	17.5%

Threshold, target and maximum levels of performance are established for cash generation and operating profit measures. The Corporation sets the target awards to be challenging, but reasonably attainable. The maximum award for both cash generation and operating profit is intended to be very difficult to achieve. The threshold performance level is 99% of target achievement for cash generation with a maximum award achieved at 102% of target. The threshold performance level is 90% of target achievement for operating profit with a maximum award achieved at 110% of target. The payout is pro-rated for achievement between the above ranges; achievement on operating profit must be at least 90% for any payout to occur.

Based on historical analysis, the Corporation believes the target award is attainable, but not easily achieved. There is a remote possibility (less than 5%) that the maximum award for operating profit could be attained.

At the beginning of each fiscal year, corporate objectives and the CEO's individual strategic objectives are determined and tabled before the MRC and the Board of Directors for review and approval.

To accurately describe the basis upon which each NEO is compensated would require a significant level of detail and, as the Corporation is the only publicly-traded spirits company in Canada, disclosing any of these individual strategic objectives would seriously prejudice the Corporation's interests by providing competitors with information regarding the Corporation's business performance targets and other sensitive information.

For the July 1, 2017 to June 30, 2018 fiscal year, overall, the Corporation's goals relating to operating profit and cash generation were overachieved. The CEO achieved 86% of the individual strategic portion of his bonus; the CFO achieved 94%, the Vice-President, Marketing achieved 89%, the Vice-President, Legal & Public Affairs achieved 98% and the Vice President, Sales achieved 84%. These achievements resulted in a payout of 64.4% of base salary for the CEO; 32.9% for the CFO; 26.5% for the Vice-President, Marketing; 38.6% for the Vice-President, Legal & Public Affairs, and 36.0% for the Vice-President, Sales.

The foregoing payments represent the following percentages of total compensation for each NEO: 17.6% for the CEO; 10.8% for the CFO; 7.8% for the Vice-President, Marketing, 15.1% for the Vice-President, Legal & Public Affairs, and 14.8% for the Vice President, Sales.

The individual strategic objectives represent the following percentages of total compensation for each NEO: 3.6% for the CEO; 3.5% for the CFO; 2.1% for the Vice-President, Marketing; 6.7% for the Vice-President, Legal & Public Affairs, and 6.0% for the Vice President, Sales.

Long-Term Incentives (RSU)

The Corporation's executives participate in a long-term incentive plan consisting of performance-contingent restricted share units ("RSU"). The long-term incentive plan is designed to motivate the executives to achieve long-term financial success of the Corporation and to further align the interests between executives and shareholders. The RSU Plan contains two-year performance-based vesting targets to ensure the RSU Plan is driving long-term performance; and provides upside for above target performance achievement (maximum of 50% increase in RSU grant if the performance target is exceeded by 10%) which aligns with the typical market practice.

RSUs reflect the market value of the Voting Class A Common Shares of the Corporation. RSUs vest and become payable to plan participants at the end of a three-year vesting period, subject to the achievement of pre-determined corporate performance targets relating to operating profit. Unvested RSUs will attract Dividend Equivalent Units whenever regular or special cash dividends are paid on the Voting Class A Common Shares of the Corporation. Dividend Equivalent Units will be immediately reinvested into additional RSUs, which will vest and become payable at the end of the three-year vesting period, subject to the same performance conditions as the original RSU award. Upon vesting, participants are eligible to receive the cash value of their RSU holdings, including the original RSU grant and any additional RSUs earned as a result of the reinvestment of Dividend Equivalent Units. Payments are made directly by the Corporation to participants in Canadian funds and, when made, all amounts in respect of RSUs and Dividend Equivalent Units which have vested are fully discharged. RSUs do not entitle participants to acquire any rights or entitlements as a shareholder of the Corporation.

The Management Resources Committee reviews and approves performance condition attainment, payout of vested RSUs, and any new RSUs granted to the NEOs.

Pensionable Salary

Pensionable salary is determined based on the average of the best 36 consecutive months of pensionable earnings (for pension benefit purposes, pensionable earnings equal the basic salary, excluding bonuses or other forms of remuneration). The following table sets forth the annualized base salary as at June 30, 2018 for each of the NEOs. The amount of annual pension payable at

normal retirement (age 65) is established as a percentage of annualized pensionable salary (maximum 70%).

Name	Annualized basic salary for the fiscal year ended June 30, 2018
Patrick O'Driscoll	N/A
Antonio Sanchez	N/A
Anne Martin	N/A
Marc Valencia	\$275,914
Stephane Côté	\$224,348

Messrs. O'Driscoll and Sanchez as well as Ms. Martin participated in the pension plans of their home countries in the United Kingdom, United States and France respectively. They do not participate in Corby's Executive Pension Plans.

Benefits and Perquisites

Although they are not considered to be a primary element of Corby's compensation program, the NEOs are entitled to receive various benefits and perquisites, including medical and dental benefits, long-term and accidental disability benefits, life insurance, product allowance (these benefits are provided to all employees), company car, club memberships, and financial counselling/tax preparation.

Employee Stock Purchase Plan

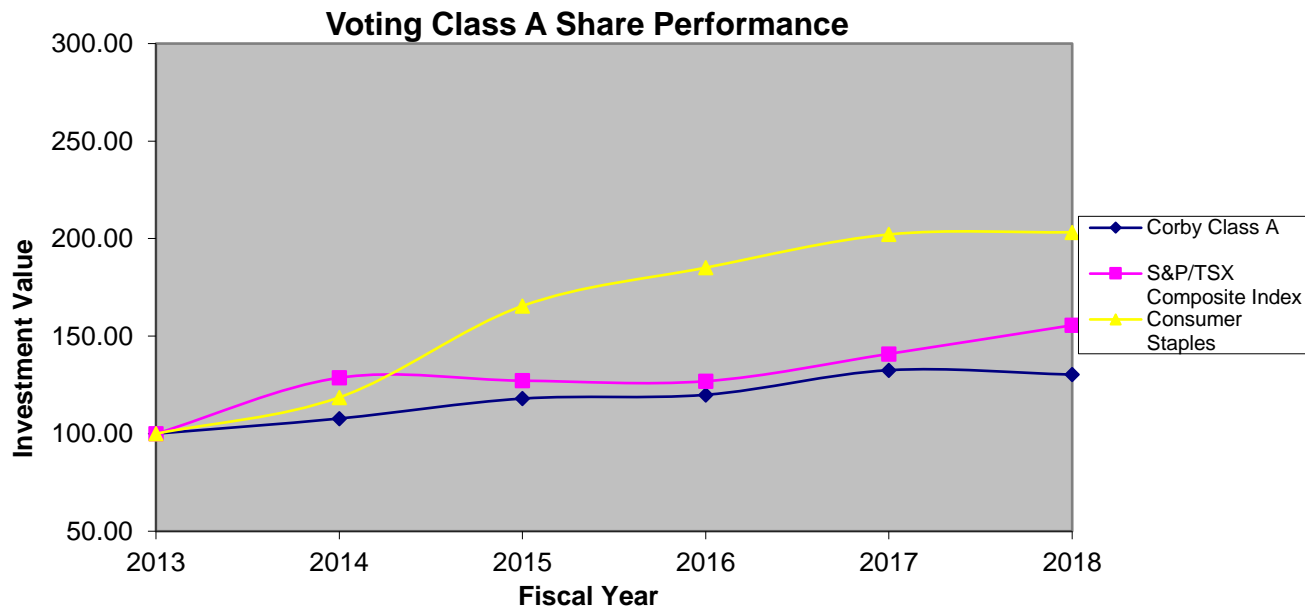

The Corporation's Employee Stock Purchase Plan is not a primary element of Corby's compensation program; however, it enables NEOs, as well as other eligible employees of the Corporation, to acquire Voting Class A Common Shares by contributing 2% to 10% of their salary through payroll deductions and in so doing, further aligns the interests of executives and shareholders. The Corporation contributes 50% of the amount contributed by the employee. During fiscal year 2018, Messrs. O'Driscoll, Sanchez, Valencia, and Côté participated in the Employee Stock Purchase Plan. Ms. Martin was not eligible to participate in the Employee Stock Purchase Plan.

Messrs. O'Driscoll, and Sanchez were invited to participate in the Employee Stock Purchase Plan on January 1, 2010, and September 1, 2015, respectively, with a maximum contribution of 5% of their salary and a matching corporate contribution of 50% of the amount contributed by them.

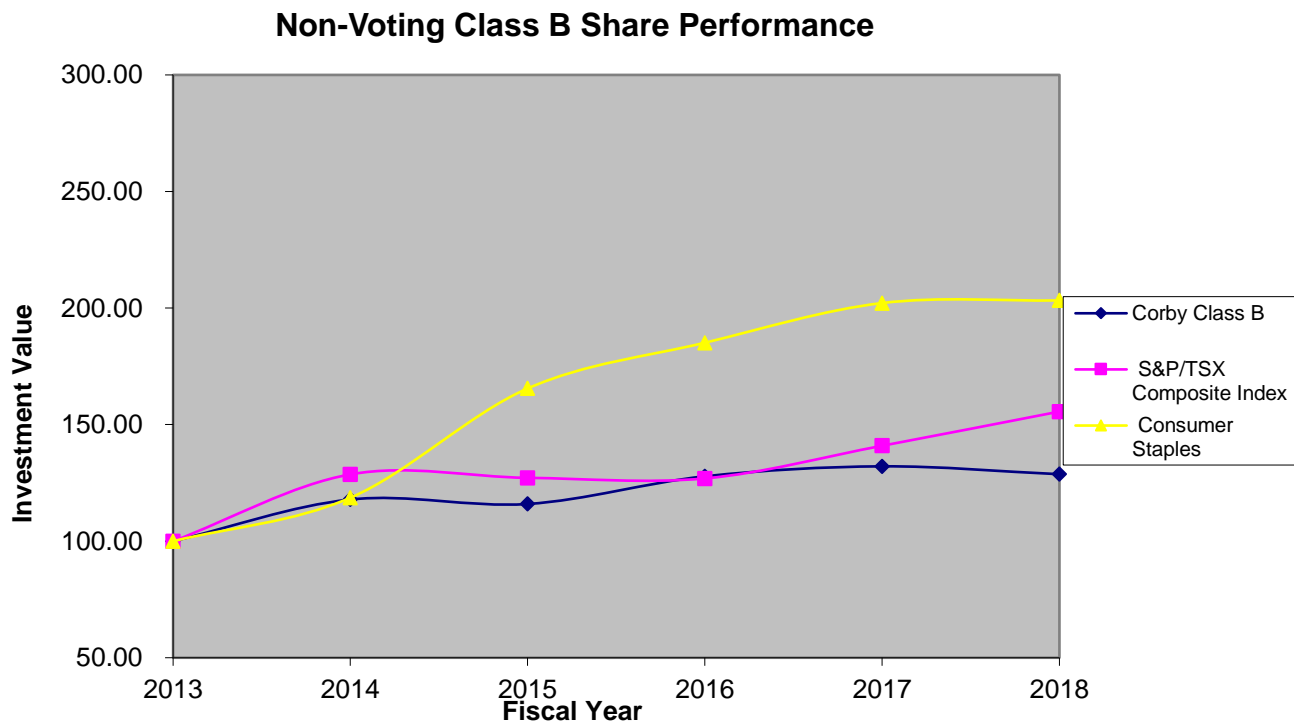

SHAREHOLDER RETURN PERFORMANCE GRAPHS

The line graphs below compare the yearly cumulative total shareholder return on the Corporation's Voting Class A Common Shares and Non-Voting Class B Common Shares with the cumulative total return of the S&P/TSX Composite Index and the Consumer Staples Sub-Index for the five-year period commencing June 30, 2013 and ending June 30, 2018.

Comparison of the Performance of Voting Class A Common Shares against the TSX 300 Index*

Comparison of the Performance of Non-Voting Class B Common Shares against the TSX 300 Index*

It is difficult to show a direct comparison between the trend in Corby's share price and the trend in the NEOs' compensation over the five-year period. Mr. Sanchez and Ms. Martin joined the

Corporation on September 1, 2015 and September 1, 2017 respectively, and total compensation for these NEOs has not been reported prior to their start date with the Corporation. In order to ensure that the Corporation is able to retain its key talent, compensation for the NEOs has been consistent with the market pricing philosophy explained in detail under the heading “Compensation Governance and Risk Mitigation” on page 15. The element of the NEOs’ total compensation that directly correlates with the shareholder value is the long-term incentive. As demonstrated in the graph above, the long-term incentives received by the NEO’s directly fluctuates with the Corporation’s share price performance. The following chart shows the historical value of the three most recent long-term incentives (RSUs) that were granted and have vested during the five-year period or will vest in the 2018 calendar year:

⁽²⁾ Mr. Sanchez and Ms. Martin did not participate in the above mentioned RSU grants; they received long-term incentives from Pernod Ricard and were not eligible for the Corby RSU Plan. PENSION PLAN BENEFITS

The NEOs participate in the Corporation's defined benefit pension plan, except for Messrs. O'Driscoll and Sanchez and Ms. Martin. In addition, the NEOs of the Corporation have entered into Supplementary Executive Retirement Agreements ("SERP") of the Corporation, except for Messrs. O'Driscoll and Sanchez and Ms. Martin.

The amounts disclosed in the table, below, are the approximate values of retirement plan obligations accrued as of June 30, 2018, the compensation costs incurred during the fiscal year, and the amounts payable upon retirement of the NEOs. These amounts are all based on assumptions and contractual entitlements, which may change over time. The major assumptions used in making these estimates are consistent with those used to value all of Corby's post-employment benefit obligations and are disclosed in Note 10 of Corby's consolidated financial statements for the year ended June 30, 2018.

Defined Benefit (DB) Retirement Plans Table

⁽³⁾ Annual pension payable at age 65 is based on projected service at age 65 and average earnings as of June 30, 2018.

⁽⁴⁾ Compensatory elements include service cost, impact of plan amendments, if any, and the impact of changes to compensation from the previous year that differed from the previous year's assumptions.

⁽⁵⁾ Non-compensatory elements include change in measurement assumptions (not related to plan amendments), such as interest rates, salary increase or mortality, if any. On June 30, 2018, the interest rate was 3.60% per annum (3.40% per annum on June 30, 2017).

⁽⁶⁾ Measurement of accrued obligation reflects the accounting assumptions used in Corby's financial statements.

Defined Benefits - Pension Benefits

The amount of annual pension payable at normal retirement (age 65) is established as a percentage of pensionable salary (maximum 70%), which is determined, as follows:

For executive officers, who joined the SERP before January 1, 1998:

- 4% for each year of pensionable service up to 10 years.
- 2% for each year of pensionable service in excess of 10 but not beyond 20 years.
- 2/3% for each year of pensionable service in excess of 20 but not beyond 35 years.

For executive officers, including the NEOs, who commenced employment with the Corporation prior to July 1, 2010 and joined the SERP on or after January 1, 1998:

- 2% for each year of pensionable service prior to joining the SERP.
- 3% for each year of pensionable service thereafter.

Pension payments are not subject to any deduction for social security or other offset amounts, such as Canada Pension Plan or Quebec Pension Plan amounts.

Executives participating in the defined benefit pension plan are required to contribute 2% of pensionable earnings up to the Year's Maximum Pensionable Earnings ("YMPE") and 5% of pensionable earnings that are between the YMPE and the Maximum Earnings Base ("MEB"). For 2018, the YMPE is \$55,900 and the MEB is \$147,222.

Early Retirement Allowance

Executives may elect to retire early; on or after age 55. The total pension shall be reduced by three percent for each year by which early retirement precedes age 60 (three percent per year by which early retirement precedes age 65, in case of early retirement with less than 10 years of service).

Termination of Service

In the case of termination prior to age 55, the executive will be entitled to a deferred pension commencing from the executive's 55th birthday.

Defined Contribution (DC) Benefits Design

For executive officers, including the NEOs, who commenced employment with the Corporation on or after July 1, 2010 and joined the SERP on or after July 1, 2010:

- Executive Optional Contributions – choice of 0%, 1%, 2%, 3% or 4% of earnings
- Corporation Matching Contribution - 100% of the executive optional contributions

An account is maintained for each executive member that includes Corporation and executive contributions plus investment income. Contributions are invested in one or more investment options available in the Plan as directed by the executive. Aggregate contributions that exceed the lesser of 18% of executive's compensation or money purchase limit for the calendar year as defined by Income Tax Act are redirected to a Trusteed Employees Profit Sharing Plan for Employees.

TERMINATION AND CHANGE OF CONTROL BENEFITS

The chart below sets out the estimated incremental payments and benefits that each NEO would be entitled to in the event of termination without cause, at June 30, 2018. There is no change of control provision in the employment agreements. The executives of the Corporation, including the NEOs (other than Messrs. O'Driscoll, Sanchez and Ms. Martin) have entered into Executive Service Agreements with the Corporation for 12 months' salary in the event of termination without cause. Messrs. APPENDIX “A”

CORBY SPIRIT AND WINE LIMITED (the “Corporation” or “Corby”)

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The Corporation is committed to a high standard of corporate governance practices. The Board of Directors supports the Corporation’s efforts to align with the recommendations currently in effect and contained in *National Policy 58-201: Corporate Governance Guidelines* and *National Instrument 58-101: Disclosure of Corporate Governance Practices* (“NI 58-101”) with the objective of providing greater transparency to Canadian capital markets regarding public company corporate governance practices. The Board will continue to monitor developments in this area carefully and will respond appropriately to any future changes.

Board of Directors

Board Mandate

The Board of Directors of the Corporation assumes stewardship of and recognizes that it is ultimately responsible for ensuring that the business and affairs of the Corporation are managed properly to protect and enhance shareholder value, including the financial viability of the business. Among its numerous duties and responsibilities, the Board:

- oversees the strategic planning process, including approval of the strategic plan and corporate performance objectives of the Corporation;
- determines matters of corporate policy, assesses management’s execution of these policies and reviews the results achieved;
- directs management to implement systems to address risks and to periodically report to the Board on these systems and risks;
- on the advice and recommendations of the Management Resources Committee, appoints officers and guides existing management resources and succession planning; and
- oversees the communications policy of the Corporation and reviews and, where necessary, approves (directly or through one of the Board Committees) material disclosure documents of the Corporation, such as annual and quarterly financial statements, management’s discussion and analysis (“MD&A”), management proxy circulars for annual meetings, and annual information forms.

In addition, the Board has adopted terms of reference that were designed to assist the Board and management in clarifying their respective responsibilities and ensuring effective communication between them. A copy of the terms of reference of the Board of Directors is attached hereto as Appendix “B” to this Management Proxy Circular.

The Board has plenary power. Any responsibility not exclusively delegated to management or to a Committee of the Board remains with the Board.

Board Composition and Independence

The Board's objective with respect to its composition is twofold: (i) to have a sufficient range of skills, expertise and experience to enable the Board to carry out its functions effectively, and (ii) to have directors that are fairly reflective of the investment that shareholders, other than the significant shareholder, have in the Corporation.

The Board is composed of nine directors, a number considered appropriate for facilitating effective dialogue and decision making. Generally, a director is considered to be "independent" if he or she has no direct or indirect material relationship with the corporation that could, in the view of the board, be reasonably expected to interfere with the exercise of the director's independent judgment. Four of the Corporation's directors are considered independent under this analysis, namely, Ms. Nielsen and Messrs. Llewellyn, Lussier and McCarthy.

The remaining directors of the Corporation are not independent under NI 58-101 by virtue of their relationship with the Corporation. Mr. O'Driscoll is the President and Chief Executive Officer ("CEO") of the Corporation. Mr. Mayle is the Vice-President and Chief Financial Officer ("CFO") of the Corporation. Mr. Duffy and Ms. Thompson were nominated by the Corporation's significant shareholder, Hiram Walker & Sons Limited ("HWSL"), and are employees of affiliates of HWSL's parent company, Pernod Ricard North America, and Chivas Brothers Limited, respectively. Dr. Boulay was nominated by the Corporation's significant shareholder and has served as external legal counsel of many subsidiaries of the Pernod Ricard Group since 1996, and as a director of each of Allied Domecq Canada Ltd., Hiram Walker-Gooderham & Worts Ltd., Hiram Walker & Sons Limited since 2006, and Seagram China Ltd. since 2009. As a result of the technical reading of NI 58-101, a majority of the directors of the Corporation is not considered "independent" within the meaning of NI 58-101.

Further, the Board is composed of a majority of non-management directors. Of the Corporation's nine directors, four of the directors are independent and only Messrs. O'Driscoll and Mayle are management directors.

The Board has established procedures to enable it to function independently of management and to facilitate open and candid discussion among the independent directors and is satisfied that it can exercise independent judgment in carrying out its responsibilities. For instance,

- the Chairman of the Board, Mr. George McCarthy, is an independent director and has, as primary function, the duty to facilitate the operations and deliberations of the Board and the satisfaction of the Board's responsibilities under its terms of reference;
- the Board meets on a regular basis with the CEO and without other management present, and it also meets from time to time without the CEO;
- the Board expects management to be responsible for the operations of the business while respecting authorized financial limits and adhering to the strategic plan, operational budget and approved corporate policies; and
- the Board expects to be advised on a regular basis as to the results being achieved and in keeping with evolving conditions to be presented for approval alternative plans and strategies proposed to be implemented.

The Independent Committee of the Board, which is constituted of all of the independent directors of the Corporation, is responsible, among other things, for ensuring that the Board functions independently of management and exercises independent judgment in carrying out its

responsibilities. See “Independent Committee” under “Committees of the Board”, below, for details concerning the Independent Committee.

For information regarding the attendance record of each director for all Board and Committee meetings held since the most recently completed financial year, please see page 10 of this Management Proxy Circular under the heading “Attendance of Directors at 2018 Board and Committee Meetings”.

Committees of the Board

The Board discharges its responsibilities directly, on the advice and recommendations of its Committees. The Board has established five standing Committees and delegates certain of its responsibilities to each of the Committees. In this regard, each Committee is mandated to report to the Board and to carry out certain responsibilities. However, all decisions, recommendations and proposals require full Board acceptance. The Board has approved terms of reference that govern the Board and each of the Committees of the Board.

The five standing Committees of the Board are: Audit Committee, Corporate Governance & Nominating Committee, Independent Committee, Management Resources Committee, and Retirement Committee. A summary of each Committee’s mandate is as follows:

Audit Committee

The principal functions of the Audit Committee are to review the annual and interim financial statements, as well as the MD&A section of the Corporation’s annual report containing financial information prior to its approval by the Board. The Audit Committee receives adequate and regular updates from management on all issues relating to audits, financial statements, MD&A, annual and interim earnings, press releases, procedures for disclosure of financial information and disclosure controls. The Audit Committee also considers the scope and extent of the annual audit and evaluates the external auditors’ performance for the preceding fiscal year, reviews their fees and makes recommendations to the Board; examines the presentation and impact of significant risks and key management estimates and judgments that may have a material impact on the Corporation’s financial reporting; examines the adequacy of the Corporation’s internal accounting control procedures and systems; meets as required and at least quarterly, may exercise all the powers of the Board and deals with Board issues between regular Board meetings with certain exceptions prescribed by law; meets periodically with management, the internal auditors and the external auditors to receive reports on internal accounting controls and audit results and to review accounting principles and practices; pre-approves non-audit services not prohibited by law to be performed by external auditors in conformity with the terms of any authorization delegated to them by the Audit Committee; and oversees the integrity of the Corporation’s management information systems.

The Audit Committee is currently composed of the independent directors and Mr. Duffy, and is chaired by Mr. Llewellyn. During the period from July 1, 2017 to June 30, 2018, the Audit Committee met four times.

For additional information concerning the Audit Committee, please refer to the section entitled “Audit Committee” contained in the Annual Information Form of the Corporation dated September 18, 2018.

Corporate Governance & Nominating Committee

The Corporate Governance & Nominating Committee is responsible for overseeing and making recommendations to the Board of Directors with respect to the Corporation’s approach to maintaining a high standard of corporate governance, including, but not limited to, determining a

board size that promotes effectiveness and efficiency; assessing the effectiveness of the Board; assessing the performance of each director on an on-going basis; providing orientation designed to acquaint new directors with the Corporation and its governance process; determining directors' remuneration after considering time commitment, compensation provided by comparable companies and risks and responsibilities associated with the position; and authorizing individual directors to engage outside advisors at the expense of the Corporation. The Corporate Governance & Nominating Committee administers and reviews compliance with the Corporation's Code of Conduct; and receives adequate and regular updates from the CEO, the CFO and/or the General Counsel and Corporate Secretary, on all issues relating to corporate governance.

Another important role of the Corporate Governance & Nominating Committee is to select and appoint new nominees to the Board. In order to identify and propose nominees for election to the Board, the Corporate Governance & Nominating Committee looks for new nominees who have expertise in an area of strategic interest to the Corporation, the ability to devote the time required for Board service and a willingness to serve on the Board and any of its Committees.

The Corporate Governance & Nominating Committee is composed of five members, a majority of which consists of independent directors, and is chaired by Ms. Nielsen. The Board also ensures that the independent directors of the Committee, exercise judgement in considering the nomination process, independent of the non-independent directors. During the period from July 1, 2017 to June 30, 2018, the Corporate Governance & Nominating Committee met three times.

Independent Committee

The Independent Committee is responsible for assessing and making recommendations to the Board of Directors in respect of matters where the interests of the minority shareholders of the Corporation may differ, or may be seen to differ, from those of the majority shareholder, HWSL, and its affiliates. This includes assisting the Board of Directors in fulfilling its responsibilities in connection with the assessment of related party transactions between the Corporation and the majority shareholder and its affiliates. The Independent Committee receives adequate and regular updates from the CEO, the CFO and/or the General Counsel and Corporate Secretary, on all issues, as appropriate.

The Independent Committee is composed of four members, all of whom are the independent directors of the Corporation, and is chaired by Mr. Llewellyn.

The Independent Committee meets regularly and during the period from July 1, 2017 to June 30, 2018, has held two formal separate meetings in the absence of management and non-independent directors. The Independent Committee also engages in discussions outside of regularly scheduled directors' meetings.
